

## CARLSSON RACER WINS AT NÜRBURGRING

During the 31st Borderland Race on 5 July on the Nürburgring, the Carlsson CK35 RS from Brückner Motorsport was once again able to demonstrate its quality. During an exciting race with many breakdowns, the two drivers Brückner and Brinks seized their opportunity and by the last lap had driven the team to second place. On the final lap the BMW Z4, which had technical problems and had been in the lead, was overtaken. Eight minutes la-

ter the Carlsson racer took the flag as class winner. Last weekend the racer came second in its class and finished 25th in the overall ranking. The Carlsson CK35 RS is based on a Mercedes SLK and the findings gained in motor sport are employed in the Carlsson production components. „This way Carlsson customers profit directly from our Involvement In motor

sport,” said Markus Schuster, managing director of Carlsson Autotechnik GmbH.

## CARLSSON PARTNER „CAR PROFESSIONAL“ OPENS SHOP IN HONG KONG

With over 300 invited guests, including many prominent Asian actors, artists and athletes, the Carlsson shop of our partner Car Professional opened in Hong Kong on 25 June. Located directly on Gloucester Road, one of the busiest boulevards in Hong Kong, the partner is the exclusive representative of the Carlsson brand. On the occasion of the ope-

ning, the Carlsson Aigner CK65 RS Eau Rouge with the production number 8 was presented to the invited guests. „With Carlsson we were able to assume a very exclusive brand representation for Hong Kong and we look forward to the cooperation,” says Daniel Chan, general manager of Car Professional in Hong Kong.

## ELLEN LOHR - THE NEW BRAND AMBASSADOR OF CARLSSON

Ellen Lohr was the most successful touring car driver of the nineties. Her victory in the 1992 DTM in Hockenheim was the highpoint of her six-year DTM career. It was the only victory up to now by a woman in this top racing series. Since 1 July the all-round racing talent Ellen Lohr has been Carlsson's brand ambassador. Ellen Lohr made a classic start to racing at the age of 14 with go-

karts. In 2004 the naturalised Monte Carlo citizen Ellen Lohr switched to offroad sport. „I've always been fascinated by the Dakar Rally,” Ellen Lohr explains. Down the years she has remained true to the Mercedes Benz brand. For example, in 2006 and 2007 she took part in an M-class prototype in the Paris-Dakar rally. For Carlsson the racing sport professional Ellen Lohr will above all assume representative tasks and cooperate in the tuning and development of Carlsson complete vehicles. As a DTM commentator Ellen Lohr became known between 2000 and 2004 as a likeable and competent motor sport expert. „We

are glad to be able to work together with a racing sport and media professional like Ellen Lohr and are proud that she will represent Carlsson worldwide as brand ambassador,” said Markus Schuster, managing director of Carlsson GmbH.

### PERFORMANCE BOOSTING KIT FOR THE V8 6.3 L ENGINE

Following elaborate tests and extensive development, the Carlsson engineers have now produced the performance boosting kit for the V8 6.3 l engine. Depending on the AMG model,

performance can be boosted by up to 52 hp. Torque rises to a maximum of 680 Nm. Consequently, the SL 63 AMG with the Carlsson CK63 S-kit reaches a top speed of 325 km/h (electronically limited). The kit for the V8 6.3 l is available immediately from 4.164,- €.
